## A Message from the City Manager

*Dear Benefits Eligible Employees,*

*Welcome to the Annual Benefits Open Enrollment event powered by Workday!*

*The Human Resources, Benefits and Payroll teams have been busy over the last year implementing a world class, integrated system to replace PeopleSoft. We are now ready to launch the system, and our Benefits Open Enrollment Event is the first opportunity to see the new system in action.*

*The Workday project and its use by all our employees is a major step forward in our pursuit of embracing and implementing innovative approaches to making City of Ontario a great government organization. We've challenged the status quo at every stage of the project, and we have implemented fresh ideas gathered from both our internal experts and external partners.*

*We invite you to take advantage of the Employee Direct Access to the system during this Benefits Open Enrollment period. If you need help logging in to the system, contact the benefits group at (909) 395-2433 or by email at [benefits@ontarioca.gov](mailto:benefits@ontarioca.gov) or work with your Department HR Liaison for one-on-one support.*

*We look forward to your feedback on the experience with Workday over the next few weeks.*

*Sincerely,*

*Al C. Boling, City Manager*

## A Message from Angela Lopez, Human Resources Director

Dear Benefits Eligible Employees,

Welcome to Open Enrollment 2017! One of the most important decisions you'll make this year for you and your family deals with your benefit elections. We are excited to provide you with access to your benefits enrollment and information on-line, anytime, anywhere from your web browser through Workday! Our hope is that this access will make it easier for you to review your benefits, discuss with eligible family members, and make informed benefit decisions. These online resources will be available to you all year.

Open Enrollment is the one time a year that you are able to make changes to your benefits without a qualifying event (see page 8), please carefully take the time to review all the benefit plan options and cost before making enrollment decisions for yourself and your eligible family members.

## Understanding Your Benefits

Choosing the right health plan is probably one of the most important decisions you can make for you and your family. What's important to you – cost, provider choice, convenience?

### Considerations When Making Your Medical Plan Decision

Carefully review all medical options made available for you and your family members. Variables that often impact your selection may include your dependent's health, expected medical costs, cost of the choices and anticipated family changes. In deciding on a medical option, consider the following:

- ◆ Are your current doctors in the plan network? You'll receive a higher level of benefits by visiting a network physician or facility.
- ◆ How often do you plan to use your medical benefits during the year? Some plans make sense if you require extensive medical care throughout the year or have a longstanding relationship with a non-network provider. Others may be more cost effective with lower out-of-pocket costs if you only need routine care during the year.
- ◆ What are the out-of-pocket costs associated with each plan? Keep in mind that depending on the plan, you may have a copay for doctor's office visits or an annual deductible before the plan starts paying any benefits.

You can refer to the medical plan comparison charts for a snapshot on commonly used benefits and refer to the plan benefit summary or plan document for details on specific benefits.

In a **Preferred Provider Organization (PPO)**, there are two kinds of providers. One is known as a *preferred provider* who provides their services at a negotiated discounted rate and is therefore considered "in-network." In a PPO plan, you may also see a provider that is considered "out-of-network." In most cases, when you see an "out-of-network" provider, your care will still be covered, although not at the "in-network" negotiated discount rate.

CalPERS has launched **CalPERS|Compare**, a one-stop-shop for your health information needs.

**CalPERS|Compare** allows you shop for medical services and prescriptions and compare your options. You can use it to track your past expenses and how much you should expect to pay. If you are enrolled in a CalPERS Anthem Blue Cross PERS Select, or PERS Choice, or PERS Care you can activate your CalPERS|Compare Account at <https://www.calperscompare.com>

In a **Health Maintenance Organization (HMO)**, you must designate a Primary Care Physician (PCP) for routine care and/or referral to a specialist. If you use a provider that is not in the HMO, or if you receive care from a specialist without a referral from your PCP, you may have to pay the full cost of those services. Out-of-pocket costs are generally lower as long as your PCP coordinates all of your care.

### Prescription Drug Coverage

When you enroll in a medical plan, you and your eligible dependents automatically receive prescription drug coverage.

### Generic, Preferred/Formulary Brand Name, & Non-Preferred/Non-Formulary Brand Name Drugs

The medical plans provide coverage of prescription drugs at various levels:

**Generic drugs** have the same active chemical ingredients and therapeutic effect as their brand-name equivalents. Though they may vary in color and shape, the Food & Drug Administration requires that they meet the same quality standards as the brand name drug. These drugs require the lowest copay.

**Preferred/Non-Preferred Brand** drugs are defined by each plan. This program minimizes the prescribing of specific higher-cost, lower-value prescription drugs (non-preferred medications) and redirects those prescriptions to more cost effective medications (preferred medications). Typically, these drugs require higher copay than their generic equivalent.

## Understanding Your Benefits

**Non-Preferred/Non-Formulary** Brand drugs are not on the preferred/formulary drug list. Some plans may cover non-preferred/non-formulary brand drugs. If your plan covers these drugs, and you and your physician agree that you should have a non-preferred/non-formulary brand drug, your copay will be higher than that of the other drugs.

If you are taking an injectable drug make sure to consider the benefit differences under each plan to make the best choice for your needs.

### Terms You Should Know

1. **Deductible**–This is the amount you must pay each calendar year before the plan begins to pay for certain benefits.
2. **Co-payment (copay)**–This is the fee that you must pay under your plan each time you go to a doctor or hospital for certain services. A copay is also required for prescription drugs.
3. **Co-Insurance**–This is the percentage of cost that you share with the plan provider after you have met the deductible.
4. **Out-of-Pocket Maximum**–The plan limits the amount of money that you will have to pay each year for covered expenses. Once you reach this dollar limit, the plan generally pays 100% of eligible expenses for the rest of the calendar year, up to the lifetime maximum.
5. **Usual, Customary and Reasonable (UCR)**–PPO plans pay up to a reasonable and customary amount for out-of-network services. Participants will have to pay for any expenses over the reasonable and customary amount, as determined by the insurance provider. Amounts over usual and customary do not apply to your deductible or out-of-pocket calendar year maximum.

### Loss of Benefits

The following circumstances may result in disqualification, or denial, loss, forfeiture, suspension, offset, reduction or recovery of any benefit that a Plan participant or dependent might otherwise reasonably expect the Plan to provide:

- an employee's cessation of active service for the employer;
- a participant's failure to pay his/her share of the cost of coverage, if any, in a timely manner;
- a dependent ceases to meet the Plan's eligibility requirements (e.g., a child reaches a maximum age limit or a spouse divorces the employee);
- a participant or dependent is injured by a third party, and expenses for treatment may be paid by or recovered from the third party or its insurer; or
- a claim for benefits is not filed within the Plan's applicable time limits.

### Contacting Your Health Plan

To obtain up-to-date contact information for the health plans, please refer to the CalPERS **Health Benefit Summary** or go to CalPERS On-Line at [www.calpers.ca.gov](http://www.calpers.ca.gov). Contact your health plan with questions about: identification cards, verification of provider participation, service area boundaries (covered ZIP Codes) or Individual Conversion Policies. Your plan benefits, deductibles, limitations, and exclusions are outlined in your health plan's *Evidence of Coverage* booklet. You can obtain the *Evidence of Coverage* by contacting your health plan directly or visiting the CalPERS website.

- › There are no claims forms to complete – just pay your copayment (if any) at the time of treatment.
- › If you require treatment from a specialist, your DeltaCare USA general dentist will coordinate a referral for you.<sup>2</sup>

**2. SEEK PREVENTIVE CARE.** Regular cleanings are a great way to keep your smile bright and may catch problems before more costly and extensive services are necessary. Your plan is designed with low or no costs for routine cleanings and exams.

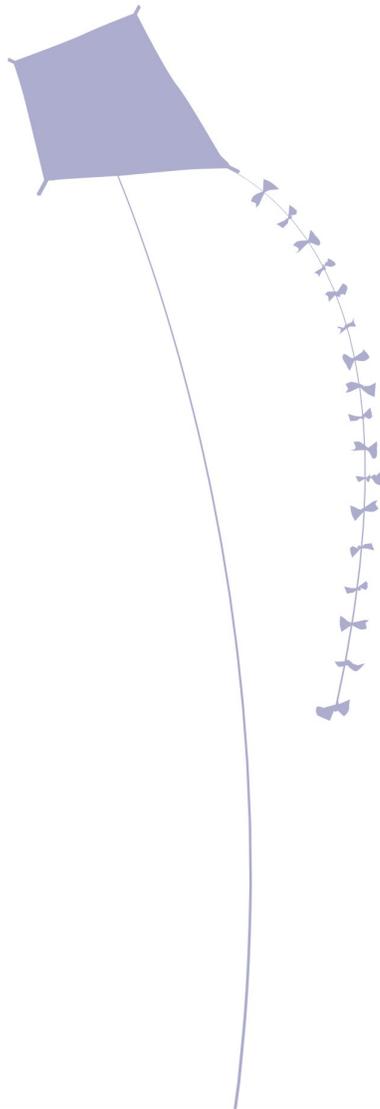

**3. ACCESS ONLINE SERVICES.** Create a free Online Services account to access plan information online anytime including benefits, eligibility, ID card and more.

<sup>1</sup> Changes received by the 21st of the month will be effective the first day of the following month. Verify that the dentist is your selected DeltaCare USA primary care dentist before each appointment.

## 2017 Flexible Spending Account Information

The City of Ontario offers its employees a Flexible Spending Account (FSA) program. This program allows you to pay for out-of-pocket health/medical expenses and dependent care (day care) with pre-tax dollars. Participants must designate the FSA election amount for the 2017 calendar year during this Open Enrollment period. This amount is deducted from your paycheck in equal installments on a pre-tax basis and credited to your FSA account(s). Our third party administrator, Benefit Coordinators Corporation (BCC), will reimburse you through direct deposit or by mailing you a check. You do not pay federal, state income tax or Social Security on FSA expenses.

Federal law prohibits any change in your FSA during the calendar year unless you or your dependent(s) have a qualifying "life event". A qualifying "life event" is marriage, divorce or legal separation, birth or adoption or a dependent, death of a dependent, or a change in your or your spouse's employment status. In addition, the FSA change must be due to and consistent with the "life event" which permits the change. For example, an increase in FSA contribution would be consistent with birth or adoption of a child; a decrease in contribution may not.

### **DEBIT CARD FEATURE:**

After rolling in the Flexible Spending Account (FSA), you will receive an FSA Debit Card to use for your eligible medical and dependent care expenses. Your debit card will reflect the plan year contribution amount and the new effective date of the plan. As you incur expenses, use your FSA Debit Card to have the funds taken directly out of your account so you don't have to pay with cash out of your pocket.

### **CAUTION:**

**For 2017 the maximum amount for a health care account is \$2,550 and for a dependent care account it is \$5,000.** When estimating your annual expenses, consider only those that you are reasonably certain to incur. Any amount **over the \$500 rollover amount**, left in your health care FSA at the end of the year is forfeited. The account is left open for claims until March 31st of the following year, but expenses must have been incurred in the same calendar year in which the payroll deduction occurred.

## **HEALTH CARE REIMBURSEMENT ACCOUNT**

Eligible expenses include health-related expenses not covered by your health plan(s) or reimbursed from any other source, for you or any of your dependents (as defined by IRS regulations). As you incur eligible expenses, you are reimbursed up to the amount of your annual election.

An IRS ruling established that over-the-counter drugs and medicines are no longer allowed to be paid for with pre-tax dollars through FSA.

Health Insurance Premiums are not eligible for FSA Health Care reimbursement. Payroll deductions for the City's group health plans are already made on a pre-tax basis. Therefore, the premiums you pay cannot be reimbursed from your FSA account or deducted on your personal income tax return.

- To receive reimbursement from an FSA, you have to incur an expense during the time that you're covered by the FSA. An expense is incurred at the time you receive the health care or service. This is not when you're billed, or pay, for the expense. (The Schedule A deduction allows for expenses paid during the year.)
- Health insurance premiums and long-term care (LTC) premiums are not eligible FSA expenses. (The Schedule A deduction allows for premiums and LTC expenses.)
- Certain over-the-counter (OTC) health care items are eligible FSA expenses. However, you need a prescription for OTC drugs and medicines in order to receive reimbursement from the FSA. (The individual taxpayer's income tax return does not allow a deduction for OTC items, drugs and medicines.)

## 2017 Flexible Spending Account Information

### DEPENDENT CARE REIMBURSEMENT ACCOUNT

Eligible expenses include baby-sitter, companion or day-care expenses that are necessary so that you can work; if you are married, the expenses must be necessary so that both you and your spouse can work. As you incur eligible expenses, you are reimbursed for the amount of expenses, up to the balance in your FSA account. Employees may select up to a maximum amount of \$5,000 per plan year.

For "child care" the maximum age for dependent children (as defined by the IRS regulations) is age 13, unless the dependent is physically or mentally unable to care of himself or herself. The dependent must spend at least eight hours per day in your home. "Overnight Camp" expenses are specifically not eligible.

Dependent Care is not restricted to "child care". Expenses you incur to provide companion or day-care expenses to any individual who qualifies as a dependent for IRS purposes can be reimbursed in the FSA program. Generally, any individual who is related to you, your spouse, is unmarried, is a US citizen or resident alien, and is dependent upon you for more than half of their total support can qualify as a "dependent" for purposes of this program. Thus, expenses you incur to provide "day-care" for a parent may be eligible expenses under the FSA program. Check with your tax advisor for specific advice.

According to the terms of the Family Support Act of 1988, there are two tax benefits available for dependent care expenses: a tax credit on your tax return, or income exclusion under an employer-sponsored spending account (FSA). Any expenses reimbursed through an FSA reduce, dollar-for-dollar, the maximum tax credit. This law restricts you to using one or the other, but not both. You should consult a tax advisor for an evaluation of your specific circumstances prior to selecting a method for dependent care expense credit.
