California Common Core State Standards: Did You Know?

School tours are based on the California Common Core State Standards (CCCSS) in a range of subjects including English Language Arts, History/Social Science, Science, and Visual Arts! The CCCSS builds strong content knowledge, model comprehension and critique, value evidence, and help students understand other perspectives and cultures. Our docent-led tours place an emphasis on analytical skills—observation, analysis, problem solving, collaborative group work, vocabulary building, hands-on art projects, and serve as examples of quality and effective presentations.
