

The proposed zone changes (aqua highlighted properties below) are to make the zoning consistent with the existing land use designation of The Ontario Plan. The matrix below shows the land use designations and the maps on the other side depict the proposed zone changes and the existing zoning.

The proposed zone changes reflect the intention to have the following residential zones:

UC, Utilities Corridor—Intended to accommodate flood control channels, retention and detention basins, electrical transmission corridors and landfills.

All existing legal non-conforming uses may continue.

Group	Existing Zoning	Proposed Zoning
C28	LDR-5, Low Density Residential	UC, Utilities Corridor
