2.0 GENERAL NOTES

2.1 Authority for Specific Plan

The California Government Code (Title 7, Division 1, Chapter 3, Article 8, Sections 65450 through 65457) authorizes cities and counties to adopt Specific Plans either by resolution as policy or by ordinance as regulation. When adopted by resolution, the Specific plan expands upon the broad policy direction of the general plan by further defining goals and objectives for a precise area with the intention of implementing that policy. Adoption by resolution is common when no existing zoning ordinance or other code is amended. When adopted by ordinance, the customized development regulations and guidelines of the Specific Plan supplement the municipal code and in effect become the zoning for the area.

Ordinance No. 2124, adopted by the Ontario City Council on March 16, 1981, allows for the creation, adoption and implementation of Specific Plans within the City.

2.2 <u>Relationship to the Ontario General Plan</u>

This is a regulatory Specific Plan. It serves as zoning for the property involved. Development plans, site plans and tentative parcel maps or tract maps in this area must be consistent with this Specific Plan. If a development agreement is sought, it must also be found to be consistent with the General Plan and this Specific Plan. Implementation of **The Exchange** carries out each of the commercial and industrial goals, principles and standards contained in the General Plan in an orderly and attractive fashion.

2.3 <u>Relationship to Ontario Development Code, Standards, Policies and Other Requirements</u>

Any standards or land use proposals not specifically covered by this plan are subject to the regulations of the City of Ontario Zoning Ordinance and Standard Specifications and Drawings of the City of Ontario. Unless otherwise specifically approved in this Specific Plan, all off-site improvements are subject to the City of Ontario policies and standards in effect at the time of submittal of improvement plans. Whenever there is a conflict between this Specific Plan and the Development Code requirements, the more stringent standard shall apply.

All construction within **The Exchange** shall be in compliance with the Uniform Building Code, Uniform Fire code and all other ordinances adopted by the City pertaining to construction and safety features. All other City standards and policies shall apply at the time of submittal.

2.4 Nuisance Factors

All nuisance factors associated with the implementation of the Specific Plan during construction and operation phases of the project, including the emission of light, glare, noise, dust and smoke, shall be governed in accordance with the mitigation measures from the Ontario Municipal Code and all other applicable codes and laws.
