8. CONSIDERATION OF AN ORDINANCE APPROVING FILE NO. PADV07-008, AN AIRPORT LAND USE COMPATIBILITY PLAN FOR LA/ONTARIO INTERNATIONAL AIRPORT AND SURROUNDING LAND USES WITHIN THE AIRPORT INFLUENCE AREA; AMENDING THE ALTERNATIVE PROCESS; AND ADOPTING A NEGATIVE DECLARATION

City Council introduced an Ordinance approving File No. PADV07-008, an Airport Land Use Compatibility Plan (ALUCP) for LA/Ontario International Airport and surrounding land uses within the airport influence area; amending the alternative process; and adopting a Negative Declaration.

Notice of public hearing was duly given and affidavit of compliance is on file in the Records Management Department.

There were no written communications.

Planning Director Blum gave a presentation indicating this is a major project and noted the airport must have plans for public use, dispute mediation and to regulate future land uses in line with the General Plan. He reviewed the ALUCP and the history of the process. He noted the ALUCP must be approved by the California Division of

Aeronautics. Director Blum's presentation included a review of the airport layout, influence area, affected jurisdictions, safety zones, noise impact zones, airspace protection zones, overflight notification zones and the inter-agency notification process. He advised that project impacts have been projected through the year 2030, and said surrounding communities contemplating development are urged to make overflight maps available in their Planning Departments, and advised that surrounding cities must adopt a similar policy within 6-9 months.

Planning Director Blum acknowledged the efforts of the Technical Advisory Committee and said the plan will be groundbreaking and possibly viewed as the way others should be developed in the future. Ontario Planning staff has been asked to participate in an upcoming statewide project involving Federal Aviation Administration (FAA) regional managers.

Council Member Wapner congratulated staff and expressed his appreciation for their hard work. In response to his questions, Director Blum said the plan's development took over a year and further noted that no changes will be necessary to the General Plan as they were worked on in tandem. Director Blum also indicated they will be working with the Southern California Association of Governments (SCAG) and the San Bernardino Associated Governments (SANBAG) relative to the regional transportation plan.

Council Member Bowman also praised all involved in the undertaking saying it is visionary as was the General Plan and its land design and land usage plans.

There was no one wishing to speak and the public hearing was closed.
