LANDSCAPE RENOVATIONS AT THE ONTARIO MUSEUM OF HISTORY & ART

The Ontario Museum of History & Art is currently undergoing landscape renovations. The project will transform 2.4 acres of water-consuming turf and asphalt parking lot, on the grounds of the Museum, into a sustainable outdoor educational garden with multiple environmental, economic, health and social benefits.

The new grounds will include two gardens, one that will focus on Native American Tongva Plants and the other will be a California Native Plant Demonstration Garden. There will also be all-weather permeable concrete pavers, an infiltration basin, vegetative swales, and educational signage. During this time of construction the Museum will maintain its normal operational hours. The Museum's main entrance is still located on Transit Street with parking available on the surrounding streets. The project is funded by an *Urban Greening Project for Sustainable Communities Grant*.

About the Ontario Museum of History & Art
