- Click on **Save for Later** to end editing and work on something else in Workday.

Click the “Electronic Signature” on the review page and then “Submit” to complete your enrollment.

- You may return to update or change your elections as many times as you wish during the designated enrollment period.
- Save and print a copy of your benefits selections and costs for your records.
- Keep your elections up-to-date and report qualifying life events within 31 days of the event taking place.

Understanding Your Benefits

Choosing the right health plan is probably one of the most important decisions you can make for you and your family. What's important to you – cost, provider choice, convenience?

Considerations When Making Your Medical Plan Decision

Carefully review all medical options made available for you and your family members. Variables that often impact your selection may include your dependent's health, expected medical costs, cost of the choices and anticipated family changes. In deciding on a medical option, consider the following:

- Are your current doctors in the plan network? You'll receive a higher level of benefits by visiting a network physician or facility.
- How often do you plan to use your medical benefits during the year? Some plans make sense if you require extensive medical care throughout the year or have a longstanding relationship with a non-network provider. Others may be more cost effective with lower out-of-pocket costs if you only need routine care during the year.
- What are the out-of-pocket costs associated with each plan? Keep in mind that depending on the plan, you may have a copay for doctor's office visits or an annual deductible before the plan starts paying any benefits.

You can refer to the medical plan comparison charts for a snapshot on commonly used benefits and refer to the plan benefit summary or plan document for details on specific benefits.

In a **Preferred Provider Organization (PPO)**, there are two kinds of providers. One is known as a *preferred provider* who provides their services at a negotiated discounted rate and is therefore considered "in-network." In a PPO plan, you may also see a provider that is considered "out-of-network." In most cases, when you see an "out-of-network" provider, your care will still be covered, although not at the "in-network" negotiated discounted rate.

CalPERS has launched **CalPERS | Compare**, a one-stop-shop for your health information needs.

CalPERS | Compare allows you to shop for medical services and prescriptions and compare your options. You can use it to track your past expenses and how much you should expect to pay. If you are enrolled in a CalPERS Anthem Blue Cross PERS Select, or PERS Choice, or PERSCARE you can activate your CalPERS | Compare Account at <https://www.calperscompare.com>.

In a **Health Maintenance Organization (HMO)**, you must designate a Primary Care Physician (PCP) for routine care and/or referral to a specialist. If you use a provider that is not in the HMO, or if you receive care from a specialist without a referral from your PCP, you may have to pay the full cost of those services. Out-of-pocket costs are generally lower as long as your PCP coordinates all of your care.

Prescription Drug Coverage

When you enroll in a medical plan, you and your eligible dependents automatically receive prescription drug coverage.

Generic, Preferred/Formulary Brand Name, & Non-Preferred/Non-Formulary Brand Name Drugs

The medical plans provide coverage of prescription drugs at various levels:

Generic drugs have the same active chemical ingredients and therapeutic effect as their brand-name equivalents. Though they may vary in color and shape, the Food & Drug Administration requires that they meet the same quality standards as the brand name drug. These drugs require the lowest copay.

Preferred/Non-Preferred Brand drugs are defined by each plan. This program minimizes the prescribing of specific higher-cost, lower-value prescription drugs (non-preferred medications) and redirects those prescriptions to more cost effective medications (preferred medications). Typically, these drugs require higher copay than their generic equivalent.

Understanding Your Benefits

Non-Preferred/Non-Formulary Brand drugs are not on the preferred/formulary drug list. Some plans may cover non-preferred/non-formulary brand drugs. If your plan covers these drugs, and you and your physician agree that you should have a non-preferred/non-formulary brand drug, your copay will be higher than that of the other drugs.

If you are taking an injectable drug, make sure to consider the benefit differences under each plan to make the best choice for your needs.

Terms You Should Know

- **Deductible**—This is the amount you must pay each calendar year before the plan begins to pay for certain benefits.
- **Co-payment (copay)**—This is the fee that you must pay under your plan each time you go to a doctor or hospital for certain services. A copay is also required for prescription drugs.
- **Co-Insurance**—This is the percentage of cost that you share with the plan provider after you have met the deductible.
- **Out-of-Pocket Maximum**—The plan limits the amount of money that you will have to pay each year for covered expenses. Once you reach this dollar limit, the plan generally pays 100% of eligible expenses for the rest of the calendar year, up to the lifetime maximum.
- **Usual, Customary and Reasonable (UCR)**—PPO plans pay up to a reasonable and customary amount for out-of-network services. Participants will have to pay for any expenses over the reasonable and customary amount, as determined by the insurance provider. Amounts over usual and customary do not apply to your deductible or out-of-pocket calendar year maximum.

Loss of Benefits

The following circumstances may result in disqualification, or denial, loss, forfeiture, suspension, offset, reduction or recovery of any benefit that a Plan participant or dependent might otherwise reasonably expect the Plan to provide:

- an employee's cessation of active service for the employer;
- a participant's failure to pay his/her share of the cost of coverage, if any, in a timely manner;
- a dependent ceases to meet the Plan's eligibility requirements (e.g., a child reaches a maximum age limit or divorce);
- a participant or dependent is injured by a third party, and expenses for treatment may be paid by or recovered from the third party or its insurer; or
- a claim for benefits is not filed within the Plan's applicable time limits.

Contacting Your Health Plan

Your plan benefits, deductibles, limitations, and exclusions are outlined in your health plan's *Evidence of Coverage* booklet. FAQ+A

Answers to frequently asked questions about your DeltaCare[®] USA plan

GETTING STARTED

1. How do I enroll in a DeltaCare USA plan?

Simply complete the enrollment process as directed by your benefits administrator. Be sure to select a primary care network dentist for yourself or your dependents, and indicate this dentist and the name of your group when you enroll.

2. How do I get started using my DeltaCare USA plan?

Once we process your enrollment, we'll mail you welcome materials that will include:

- **The name, address and phone number of your selected primary care dentist:** Simply call the dental facility to make an appointment.
Important note: In order to receive benefits under your plan, you must visit your primary care network dentist for all services. If you require treatment from a specialist, your primary care dentist will coordinate a referral for you. You can change your primary care dentist by contacting us.
- **Your Evidence/Certificate of Coverage (plan booklet):** This useful document provides a thorough description of how to use your benefits, including covered services, copayments and any limitations and exclusions of your plan.
- **An ID card:** This card is for your records only — you do not need to present it in order to receive treatment.

3. How long will it take to get an appointment with my primary care dentist?

Two to four weeks¹ is a reasonable amount of time to wait for a routine, non-urgent appointment. If you require a specific time, you may need to wait longer. Most DeltaCare USA dentists are in private group practices, which generally offer greater appointment availability and extended office hours.

4. How much will my dental treatments cost? How do I pay?

With your DeltaCare USA plan, some services are covered at no cost, while others have a copayment (amount you pay) for certain services. To find out how much a treatment will cost, refer to the "Description of Benefits and Copayments" in this brochure for a list of covered services and copayments. It's a good idea to bring your Evidence/Certificate of Coverage to your appointment in case you need to discuss your copayment for a service with your dentist. If you have any questions about the charges for a service, please contact our Customer Service department. If you receive treatment that requires a copayment, simply pay the dental facility at the time of service.

CHOOSING A DENTIST

5. How do I select my primary care dentist?

When you enroll, you must select a primary care dentist from the DeltaCare USA network. To search for a dentist, use the "Find a Dentist" tool at deltadentalins.com and select DeltaCare USA as your network. If you do not select a dentist when you enroll, we will choose one for you.

6. Does everyone in my family have to choose the same primary care dentist?

No. Each family member can select his or her own primary care network dentist.

7. Can I change my primary care dentist?

Yes. You can request to change your primary care dentist at any time. Simply visit our website and log on to your Online Services account or call or write to Customer Service. Change requests received by the 21st of the month will become effective the first day of the following month.

¹ In TX, three weeks is a reasonable amount of time to wait for a routine, non-urgent appointment. In TX, there is no limit on the number of miles or on the dollar amount per emergency.

8. My dentist says she is a Delta Dental dentist, but she isn't listed in the DeltaCare USA directory. Can I still visit her for services?

No. You must visit your selected primary care network dentist to receive benefits under this plan. Delta Dental has many networks, and participation may vary — not all Delta Dental dentists are DeltaCare USA dentists.

9. What should I do if I need to see a specialist?

If you require specialty dental care — such as oral surgery, endodontics, periodontics or pediatric dentistry — contact your primary care dentist to request a referral. Specialty dental services not performed by your selected primary care dentist must be authorized by us. You are responsible for any applicable copayments.

GENERAL PLAN INFORMATION

10. If I'm traveling, is emergency treatment covered under my plan?

You and your eligible dependents have out-of-area coverage for dental emergencies when you are more than 35 miles² from your primary care dentist. Your out-of-area emergency benefit (typically limited to \$100 per enrollee³) is for services to relieve pain until you can return to your primary care network dentist. Standard plan limitations, exclusions and copayments may apply.

11. Can I access my plan online?

Yes. Visit deltadentalins.com/enrollees to create a free, secure Online Services account. On our website, you can access your plan benefits and ID card, select (or change) your primary care dentist — and more.

12. Does my plan cover pre-existing conditions? What about treatments that are in progress?

Treatment for pre-existing conditions (except work in progress³), including missing or extracted teeth, is covered under your plan. Treatment in progress includes services such as preparations for crowns or root canals, or impressions for dentures. If you started treatment before your plan's effective date, you and your prior dental carrier are responsible for any costs. Some DeltaCare USA plans may cover in-progress orthodontic treatment.

13. Does my plan cover teeth whitening?

Yes. External bleaching is a benefit under your DeltaCare USA plan. Review your plan booklet for more information and talk to your dentist about your options.

14. Does my plan cover tooth-colored fillings and crowns?

Yes. Porcelain and other tooth-colored materials are included in this plan.

15. What if I have additional questions about my plan?

Please contact us for additional support. Our Customer Service agents can answer benefits questions as well as help you change your primary care dentist or arrange for urgent care referrals. See the back page of this brochure for our contact information.

² In TX, there is no limit on the number of miles or on the dollar amount per emergency.

³ In TX, there is no exception for work in progress for covered DeltaCare USA benefits.

Delta Dental PPO™

Save with PPO

Visit a dentist in the PPO¹ network to maximize your savings.² These dentists have agreed to reduced fees, and you won't get charged more than your expected share of the bill.³ Find a PPO dentist at deltadentalins.com.

Set up an online account

Get information about your plan anytime, anywhere by signing up for an online account at deltadentalins.com. This free service, available once your coverage kicks in, lets you check benefits and eligibility information, find a network dentist and more.

Check in without an ID card

You don't need a Delta Dental ID card when you visit the dentist. Just provide your name, birth date and enrollee ID or social security number. If your family members are covered under your

plan, they will need your information. Prefer to take a paper or electronic ID card with you? Simply log in to your account, where you can view or print your card with the click of a button.

Coordinate dual coverage

If you're covered under two plans, ask your dental office to include information about both plans with your claim, and we'll handle the rest.

Understand transition of care

Did you start on a dental treatment plan before your PPO coverage kicked in? Generally, multi-stage procedures are only covered under your current plan if treatment began after your plan's effective date of coverage.⁴ You can find this date by logging in to your online account.

Newly covered?

Visit deltadentalins.com/welcome.

Save with a PPO dentist

¹ In Texas, Delta Dental Insurance Company provides a dental provider organization (DPO) plan.

² You can still visit any licensed dentist, but your out-of-pocket costs may be higher if you choose a non-PPO dentist. Network dentists are paid contracted fees.

³ You are responsible for any applicable deductibles, coinsurance, amounts over annual or lifetime maximums and charges for non-covered services. Out-of-network dentists may bill the difference between their usual fee and Delta Dental's maximum contract allowance.

⁴ Applies only to procedures covered under your plan. If you began treatment prior to your effective date of coverage, you or your prior carrier is responsible for any costs. Group- and state-specific exceptions may apply. If you are currently undergoing active orthodontic treatment, you may be eligible to continue treatment under Delta Dental PPO. Review your Evidence of Coverage, Summary Plan Description or Group Dental Service Contract for specific details about your plan.

2020 Flexible Spending Account Information

The City of Ontario offers its employees a Flexible Spending Account (FSA) program. This program allows you to pay for out-of-pocket health/medical expenses and dependent care (day care) with pre-tax dollars. Participants must designate the FSA election amount for the 2020 calendar year. This amount is deducted from your paycheck in equal installments on a pre-tax basis and credited to your FSA account(s). Our third party administrator, Benefit Coordinators Corporation (BCC), will reimburse you through direct deposit or by mailing you a check. You do not pay federal, state income tax or Social Security on FSA expenses.

Federal law prohibits any change in your FSA during the calendar year unless you or your dependent(s) have a qualifying "life event." A qualifying "life event" is marriage, divorce or legal separation, birth or adoption or a dependent, death of a dependent, or a change in your or your spouse's employment status. In addition, the FSA change must be due to and consistent with the "life event" which permits the change. For example, an increase in FSA contribution would be consistent with birth or adoption of a child; a decrease in contribution may not.

DEBIT CARD FEATURE:

After enrolling in the Flexible Spending Account (FSA), you will receive an FSA Debit Card to use for your eligible medical and dependent care expenses. Your debit card will reflect the plan year contribution amount and the new effective date of the plan. As you incur expenses, use your FSA Debit Card to have the funds taken directly out of your account so you don't have to pay with cash out of your pocket.

CAUTION:

For 2020, the maximum amount for a health care account is \$2,750 and for a dependent care account it is \$5,000. When estimating your annual expenses, consider only those that you are reasonably certain to incur. Any amount **over the \$500 rollover amount**, left in your health care FSA at the end of the year will be forfeited. The account is left open for claims until March 31st of the following year, but expenses must have been incurred in the same calendar year in which the payroll deduction occurred.

HEALTH CARE REIMBURSEMENT ACCOUNT

Eligible expenses include health-related expenses not covered by your health plan(s) or reimbursed from any other source, for you or any of your dependents (as defined by IRS regulations). As you incur eligible expenses, you are reimbursed up to the amount of your annual election.

An IRS ruling established that over-the-counter drugs and medicines are no longer allowed to be paid for with pre-tax dollars through FSA.

Health Insurance Premiums are not eligible for FSA Health Care reimbursement. Payroll deductions for the City's group health plans are already made on a pre-tax basis. Therefore, the premiums you pay cannot be reimbursed from your FSA account or deducted on your personal income tax return.

- To receive reimbursement from an FSA, you have to incur an expense during the time that you're covered by the FSA. An expense is incurred at the time you receive the health care or service. This is not when you're billed, or pay, for the expense. (The Schedule A deduction allows for expenses paid during the year.)
- Health insurance premiums and long-term care (LTC) premiums are not eligible FSA expenses. (The Schedule A deduction allows for premiums and LTC expenses.)
- Certain over-the-counter (OTC) health care items are eligible FSA expenses. However, you need a prescription for OTC drugs and medicines in order to receive reimbursement from the FSA. (The individual taxpayer's income tax return does not allow a deduction for OTC items, drugs and medicines.)

2020 Flexible Spending Account Information

DEPENDENT CARE REIMBURSEMENT ACCOUNT

Eligible expenses include baby-sitter, companion or day-care expenses that are necessary so that you can work; if you are married, the expenses must be necessary so that both you and your spouse can work. As you incur eligible expenses, you are reimbursed for the amount of expenses, up to the balance in your FSA account. Employees may select up to a maximum amount of \$5,000 per plan year.

For "child care," the maximum age for dependent children (as defined by the IRS regulations) is age 13, unless the dependent is physically or mentally unable to care of himself or herself. The dependent must spend at least eight hours per day in your home. "Overnight Camp" expenses are specifically not eligible.

Dependent Care is not restricted to "child care." Expenses you incur to provide companion or day-care expenses to any individual who qualifies as a dependent for IRS purposes can be reimbursed in the FSA program. Generally, any individual who is related to you, and is dependent upon you for more than half of their total support can qualify as a "dependent" for purposes of this program. Thus, expenses you incur to provide "day-care" for a parent may be eligible expenses under the FSA program. Check with your tax advisor for specific advice.

According to the terms of the Family Support Act of 1988, there are two tax benefits available for dependent care expenses: a tax credit on your tax return, or income exclusion under an employer-sponsored spending account (FSA). Any expenses reimbursed through an FSA reduce, dollar-for-dollar, the maximum tax credit. This law restricts you to using one or the other, but not both. You should consult a tax advisor for an evaluation of your specific circumstances prior to selecting a method for dependent care expense credit.

Identity fraud facts

In the U.S. those between ages 35-44 are at the greatest risk of identity theft.¹

Of identity theft reported in 2014 in the U.S., government documents and benefits fraud (39%) was the most common form, followed by credit card fraud (17%).⁵

Victims of medical identity theft who resolved the crime spent, on average, more than 200 hours on activities such as working with their insurer or health care provider to make sure their personal medical credentials were secured and verifying their personal health information, medical claims, invoices, and electronic health records were accurate.⁶
