

Sign Plan Application Form

303 East B Street, Ontario, California 91764 Phone: 909.395.2036 / Fax: 909.395.2420

Dear Applicant:

In an effort to improve customer service and ensure development projects are processed as quickly as possible, the Planning Department finds it necessary to remind its clients that complete application submittals are crucial to the plan review process. In the past, accepting incomplete applications has led to errors and time delays at the end of the review process. I do not want this to happen to you.

Consequently, the Planning Department staff will only accept complete applications at time of submittal. All items requested by this application packet, along with the required filing fee, must be provided before the Planning Department counter staff can accept your application for filing. Please review all minimum requirements prior to submitting your application, as counter staff do not have the authority to waive any requirements.

Please remember that failure to provide all of the required plans and information will result in significant time delays in the processing of your application. If you have any questions regarding the necessity of any particular item required by this application packet, please feel free to contact the Planning Department counter supervisor to discuss your questions.

The Planning Department looks forward to a continued efficient and professional relationship with you in the future. If you have any questions, comments, or concerns regarding this matter, please feel free to contact the Planning Department at (909) 395-2036.

Respectfully,

FILING REQUIREMENTS

WHAT IS A SIGN PLAN?

A Sign Plan is a set of drawings that describe, in detail, how a sign is proposed to be constructed and placed on a particular property.

WHY IS A SIGN PLAN REQUIRED?

The City recognizes the need for signs as a means to identify businesses within the community, and further recognizes that signing is an important design element of the physical environment. The City is committed to preserving and improving its appearance and is striving to provide an economically stable and visually attractive community through site planning, building design, landscaping and signing.

When properly designed, a sign can be pleasing and can harmonize with physical character of its environment. Poorly designed signs, however, detract from the city's aesthetic value, can result in a reduction in property values and in some cases, can present a hazard to both pedestrians and motorists.

The City is committed to preserving its aesthetic value, assuring the health and safety of its residents, and to preserving and maintaining property values. To this end, the Ontario City Council has adopted regulations governing the placement, number, size and design of signs in the City. The implementation of these regulations is ensured through the Sign Plan

- (1) Completed *Sign Plan Application Form* and filing fee.
- (2) Three (3) fully dimensioned color copies of the sign plan, and the following:
 - (a) A site plan showing the location of all proposed signs.
 - (b) Exterior building elevations showing the location of all proposed wall signs.
 - (c) A fully dimensioned elevation drawing of all proposed signs, describing the sign length, width, depth, letter height, materials and colors.
 - (d) A cross section showing how the sign will be attached to the building.
 - (e) Signature of the property owner or approving agent on the *Sign Plan Application Form*.
- (3) Photographs of the site, including existing signs and proposed sign location(s).
- (4) Provide a copy of the current business license for the business requesting sign approval, or provide the business license number on the *Sign Plan Application Form*.
