Section 5

DEVELOPMENT STANDARDS

A. PURPOSE AND INTENT

This section formally establishes the use restrictions and development standards (zoning) for the MEREDITH INTERNATIONAL CENTRE property. The regulations provided herein work in concert with the architectural and landscape guidelines set forth in Section 6, *Design Guidelines*, of this Specific Plan to achieve the vision of the MEREDITH INTERNATIONAL CENTRE.

B. DEFINITION OF TERMS

The meaning of words, phrases, titles, and terms shall be the same as provided in the City of Ontario Development Code (hereafter referred to as “Development Code”), unless otherwise specifically defined in this Specific Plan.

C. APPLICABILITY

The regulations set forth in this section shall apply to all development plans or agreements, tract or parcel maps, site plans, or any other action requiring administrative or discretionary approval within the 257.7-acre MEREDITH INTERNATIONAL CENTRE Specific Plan area. Whenever the development standards contained herein differ from those contained in the Development Code, the provisions of this Specific Plan shall take precedence. Any development standard, condition, or situation not specifically addressed herein shall be subject to the applicable requirements of the Development Code.

D. PERMITTED, CONDITIONAL, AND ANCILLARY LAND USES

Land within the MEREDITH INTERNATIONAL CENTRE Specific Plan area and structures/facilities thereon may only be developed, divided, and/or used for those activities listed in Table 5-1, *Land Use Matrix*. Table 5-1 lists the permitted, conditional, and ancillary land uses for each land use district established by this Specific Plan (Industrial, Urban Commercial, and Urban Residential). The symbols shown in Table 5-1 have the following meanings:

- “P” means the land use is permitted by right of being in the proper land use district, subject to the development standards applicable to that land use district.
- “C” means the land use is conditionally permitted, subject to the filing of a Conditional Use Permit in accordance with the requirements of the City of Ontario Development Code, and must be approved by the City of Ontario Zoning Administrator or Planning Commission before the use can be established within a particular land use district.
- “A” means the land use is permitted by right of being in the proper land use district, provided the use is ancillary to the primary permitted or conditionally permitted use of the property.
- “--” means the land use is prohibited within the specified land use district.

A use that is not specifically listed in Table 5-1 is deemed a prohibited use unless otherwise allowed pursuant to the applicable interpretations and determinations established by the Development Code.

Within screened/enclosed yards	0 ft.
Maximum Building Height Requirements	
Building Height	70-150 ft. ¹⁰
Vertical Architectural Projections (towers, focal elements, cupolas, etc.)	10 ft.

Notes:

1. Landscaping shall include plantings (trees, shrubs, groundcovers, vines) and may include walkways, benches, trellises, thematic fencing, walls, and related amenities.
- 2a. At least 70 feet of setback shall include landscaping, excluding corner lots.
- 2b. At least 20 feet of each setback shall include landscaping.
- 2c. At least 15 feet of each setback shall include landscaping.
- 2d. At least 5 feet of each setback shall include landscaping.
3. Minimum setback does not apply to driveways that are perpendicular to and connect to public streets.
4. The required setback may be reduced up to 5 feet where the road transitions approaching an intersection or driveway.
5. The required setback may be reduced up to 5 feet adjacent to bus stops.
6. The required setback may be reduced up to 3 feet where the road transitions approaching an intersection or driveway.
7. In the event PA 1A does not redevelop (i.e., remains a school), a minimum 20-foot landscaped buffer shall be provided along the interface between Planning Area 1 and Planning Area 1A.
8. Encroachments into required setbacks shall only be permitted where adequate emergency access can be maintained.
9. As measured from the public right-of-way.
10. Subject to the Ontario International Airport Land Use Compatibility Plan.

Other Industrial Development Standards

- (1) Driveways connecting Planning Area 1 and Planning Area 1A to East 4th Street shall be used primarily for passenger car traffic only. Durable, legible, weather-proof “No Truck Entry” signs shall be posted at every driveway entrance along East 4th Street. Access for emergency vehicles will be allowed at East 4th Street.
- (2) Loading docks are prohibited on building facades that directly face East 4th Street, or North Vineyard Avenue. Loading docks at side yards are permitted.
- (3) Loading docks and truck parking areas shall be visually screened from East 4th Street, North Vineyard Avenue, and Inland Empire Boulevard by walls, landscaping, and/or other screening features or barriers (such as berms).
- (4) Gated entry points shall only be permitted at access points along Del Rio Place and East Jay Street that are no less than 800 feet from signalized intersections, and with City concurrence. If entry gates are used, they shall be positioned to allow enough distance for the stacking of at least two (2) trucks on the lot to preclude queuing of trucks on public streets.
- (5) The outdoor storage of materials and equipment shall be permitted ancillary to the land uses allowed pursuant to Table 5-1, *Land Use Matrix*. Within outdoor storage areas, materials or equipment shall be stored to a height no greater than fourteen feet (14’). Outdoor loading and storage areas and loading doors shall be screened from public view by decorative concrete or masonry walls with lockable view obstructing gates. Such walls shall be minimum eight feet (8’) in height and shall be of sufficient height to screen all outdoor materials and equipment, tractors and trailers, and loading doors from public view and shall not exceed fourteen feet (14’) in height.
- (6) Ground- and roof-mounted exterior mechanical equipment, heating and ventilating, air conditioning, tanks, and other mechanical devices shall be screened and treated with a neutral color when visible from East 4th Street, North Vineyard Avenue, Inland Empire Boulevard, or residential property.
- (7) Exterior sound amplification devices (e.g., intercom systems, loudspeakers) shall be oriented away from residential properties.
- (8) Exterior lighting fixtures shall be downward directed. Pole-mounted lights shall be shielded with the light source oriented away from public streets and residential properties.
- (9) Primary buildings (not ancillary buildings) shall achieve a minimum “Certified” rating under the United States Green Building Council’s Leadership in Energy & Environmental Design (LEED) program.
- (10) Solar panels shall be installed on primary industrial buildings (not ancillary buildings) to provide electricity to the building.
- (11) All manufacturing and processing activities shall be conducted within a wholly enclosed building.
- (12) Properties located within the Airport Influence Area (AIA) established by the Ontario International Airport Land Use Compatibility Plan (ALUCP) shall be subject to the requirements and standards of the ALUCP.

F. URBAN COMMERCIAL DEVELOPMENT STANDARDS

The following standards establish the development criteria that shall apply within the Urban Commercial land use district of this Specific Plan (Planning Areas 2, 3, and 5).

Vertical Architectural Projections (towers, focal elements, cupolas, etc.)	10 ft.

Notes:

1. Lot size shall be large enough to accommodate the proposed land use and meet all minimum development standards specified within this Specific Plan.
2. Landscaping shall include plantings (trees, shrubs, groundcovers, vines) and may include walkways, benches, trellises, thematic fencing, walls, and related amenities.
3. The entire setback shall include landscaping.
- 3a. At least 5 feet of the setback shall include landscaping.
4. Minimum setback does not apply to driveways that are perpendicular to and connect to public streets.
5. Encroachments into required setbacks shall only be permitted where adequate emergency access can be maintained.
6. As measured from the public right-of-way.
7. Subject to the Ontario International Airport Land Use Compatibility Plan.

Other Urban Commercial Development Standards

- (1) Loading docks shall be visually screened from Inland Empire Boulevard, North Vineyard Avenue, and North Archibald Avenue by walls, landscaping, and/or other screening features or barriers (such as berms).
- (2) Ground- and roof-mounted exterior mechanical equipment, heating and ventilating, air conditioning, tanks, and other mechanical devices shall be screened and treated with a neutral color when visible from North Vineyard Avenue, Inland Empire Boulevard, or residential property.
- (3) Exterior sound amplification devices (e.g., intercom systems, loudspeakers) shall be oriented away from residential properties.
- (4) Exterior lighting fixtures shall be shielded with the light source oriented away from public streets and freeways and residential properties.
- (5) Curb cuts for direct driveway access to/from retail drive-through lanes from public streets are prohibited. All circulation to/from retail drive-through lanes shall be contained within a larger Urban Commercial project, with points of access to public streets approved by the City.
- (6) Off-street parking shall be provided in accordance with the City of Ontario Development Code.
- (7) Signage shall conform to the design guidelines contained in Section 6 of this Specific Plan and the City of Ontario Development Code.
- (8) Primary buildings (not ancillary buildings) shall achieve a minimum “Certified” rating under the United States Green Building Council’s Leadership in Energy & Environmental Design (LEED) program.
- (9) All business activities shall be conducted within a wholly enclosed building, excepting sale or display or new or used motor vehicles, outdoor cafes and eating areas, and temporary uses and activities pursuant to an approved temporary use permit.
- (10) Properties located within the Airport Influence Area (AIA) established by the Ontario International Airport Land Use Compatibility Plan (ALUCP) shall be subject to the requirements and standards of the ALUCP.

- 2b. At least 10 feet of the setback shall include landscaping.
3. Setbacks from private streets shall be measured from the back of sidewalk.
4. Encroachments into required setbacks shall only be permitted where adequate emergency access can be maintained.
5. Refer to "Other Urban Residential Development Standards," on the following page.
6. As measured from the public right-of-way.
7. Subject to the Ontario International Airport Land Use Compatibility Plan.

Other Urban Residential Development Standards

- (1) Private Open Space
 - (a) Each unit shall have a minimum contiguous area of 60 s.f. of private open space for the exclusive use of a dwelling unit's occupants and guests. The design of private open space areas shall comply with the City of Ontario Development Code.
- (2) Common Open Space
 - (a) A minimum of 250 s.f. of common open space per unit shall be provided for the enjoyment of all residents within a development project. Common open space may consist of active areas – including, but not limited to, recreation buildings, tot lots, and swimming or wading pools – and passive areas incorporating features that enhance the appearance and desirability of a development project – such as greenbelts, pathways, waterscapes, hardscapes, rockscapes, benches, gazebos, raised planters, and other unique features. The design of common open space areas shall comply with the City of Ontario Development Code.
- (3) Off-street parking shall be provided in accordance with the City of Ontario Development Code.
- (4) Signage shall conform to the design guidelines contained in Section 6 of this Specific Plan and the City of Ontario Development Code.
- (5) Primary buildings (not ancillary buildings) shall achieve a minimum “Certified” rating under the United States Green Building Council's Leadership in Energy & Environmental Design (LEED) program.

- (6) Properties located within the Airport Influence Area (AIA) established by the Ontario International Airport Land Use Compatibility Plan (ALUCP) shall be subject to the requirements and standards of the ALUCP.
- (7) The following disclosure shall be made to all buyers as part of any residential real estate transaction in accordance with the Ontario International Airport ALUCP and California Business and Professions Code §11010 and Civil Code §§ 1102.6, 1103.4, and 1353:

NOTICE OF AIRPORT IN VICINITY: This property is presently located in the vicinity of an airport, within what is known as an airport influence area. For that reason, the property may be subject to some of the annoyances or inconveniences associated with proximity to airport operations (for example: noise, vibration, or odors). Individual sensitivities to those annoyances can vary from person to person. You may wish to consider what airport annoyances, if any, are associated with the property before you complete your purchase and determine whether they are acceptable to you.
